## Instant Messaging & Presence

**Powered by Lync Online-** Helps users find the right person to connect with, view their presence, and then communicate with them in the most effective way.

**Presence-** Shows whether a user is available, in a meeting, away from their desk or offline, additional notes such as location and status, and how the user can be contacted.

**Instant Messaging-** Contact anyone, even groups of people, within your company, allowing them to answer if and when they are available. Transfer files, schedule meetings and initiate video calls all within the IM window.

## Conferencing

**Powered by Lync Online** - Online conferencing tool enabling IM, Lync video calls and online meetings. A simple IM conversation can be escalated to an audio conference with desktop sharing among multiple team members instantly.

**Voice and video capabilities-** Work reliably and from any location with an Internet connection. And, by reducing travel expenses help businesses achieve substantial cost savings.

**Share-** Audio, video, documents, desktops, and applications. All parties can see and edit presentations, documents and other content without a single e-mail exchange.

## Online Collaboration Portal and Document Store

**Powered by SharePoint Online-** Store, edit and share documents online, available from any device via the internet.

**Portals-** Design, deploy and manage tailored intranet portals and websites.

**Controlled working-** Includes check in and check out of documents, version control and precise role-based controls

## Microsoft Office Professional

**Powered by SharePoint Online-** Access Word, Excel, Powerpoint and One Note either using the hosted Microsoft Office Web Apps or Microsoft Office Professional Plus.

**Consistent formatting from Desktop to Web-** Without the worry of offline or online changes affecting the look of your document you can edit documents anywhere with confidence.

**Edit Together-** Simultaneously edit with others in real-time, removing the need to email documents between team members.

## Email, Calendar

**Sync email, calendar, and contacts** across PC, phone, and browser with Exchange Online. Take advantage of large, 25-GB mailboxes and the ability to send messages up to 25 MB in size.

**Connect with Microsoft Outlook 2010 or 2007** and use rich Outlook functionality whether on the Internet or offline. Access email, calendars, and contacts from nearly any web browser while keeping a rich, familiar experience with Outlook Web App.

**Easily schedule meetings** by sharing calendars and viewing them side-by-side to see others' availability and suggest meeting times.
